Wildlife viewing is a popular activity in Kluane. Please help the wildlife, others and yourself by following these guidelines:

- Do not feed bears or other wildlife as they learn very quickly to depend on humans for food. As a result they often become a hazard to people and have to be destroyed.
- View wildlife from a distance with the use of binoculars or a zoom lens rather than getting close and disturbing them.
- Remember that you are visiting these animals' homes. Please be as considerate as you would if you were visiting friends. Thank you.
